

Ishara Wijerathna

Data Science Undergraduate at SLIIT

kavinduishara0211@gmail.com | +94779604206 | [GitHub](#) | [LinkedIn](#)

Professional Summary

Third-year Data Science undergraduate at SLIIT with skills in SQL, R, Python, Power BI, Excel, statistics, MERN stack, and Java Spring Boot. Strong foundation in data analysis, visualization, statistical concepts, and full-stack application development. Actively seeking an internship to apply technical and analytical skills, gain real-world experience, and contribute to impactful software and data-driven projects.

Education

B.Sc. (Hons) in Information Technology, specializing in Data Science, SLIIT

- Current CGPA: 3.3 (Present in 3rd Year)
- Expected Graduation: 2027 Relevant Coursework:
- Python Programming, Statistics, Machine Learning, Database Management, Data Warehousing, Business Intelligence, Data Visualization.

Technical Skills

- **Programming Languages:** SQL, Python, R, HTML, PHP, Java, JavaScript, React.js, Node.js, Express.js, Kotlin • **Data Analysis & Visualization:** Microsoft Excel, Power BI
- **Databases:** MySQL, SQL Server, MongoDB
- **Tools & Platforms:** Git, GitHub, R Studio, PyCharm, Visual Studio, VS Code, Postman, IntelliJ IDEA, Android Studio
- **Frameworks & Libraries:** Spring Boot, React.js, Express.js, Node.js, Tailwind CSS

Projects

Food-Panda-online-delivery-Analysis

Developed an end-to-end data warehousing and business intelligence solution to analyze Food-Deliveries, Sales trends, and Customer behaviours. Structured ETL pipelines, dimensional models, OLAP cubes, and interactive dashboards to enable reporting, drill-down analysis, and data-driven decision-making.

- **Technologies & Tools:** SQL Server, SSIS, SSAS, SSDT, Excel, Power BI, SQL
- **Git Repo 1:** <https://github.com/Ishara125/FoodPanda-Data-Warehouse>
- **Git Repo 2:** <https://github.com/Ishara125/FoodPanda-SSAS-Project>

Airline-Passanger-saticefaction- Analysis using Statistical Modelling

Implemented a statistical analysis project in R to study the relationship between customer services and customer saticefaction. Applied data cleaning, hypothesis testing, regression modelling, and diagnostics to generate datadriven insights.

- **Technologies & Tools:** R Language, R Studio
- **Git Repo:** https://github.com/Ishara125/Analysis_of_airline_passengers_R_Project

Smart Campus Management Platform

Built a full-stack campus management platform for facilities, bookings, incidents, and role-based administration with secure REST APIs, dashboards, analytics, and media uploads.

- **Technologies & Tools:** Spring Boot, MongoDB, React, JWT, Tailwind CSS, Postman
- **Git Repo:** <https://github.com/Ishara125/it3030-paf-2026-smart-campus-groupY3S1-WD-113>

Ocean Track 360 - Fisheries Management & E-commerce Ecosystem

Engineered a full-stack fisheries and seafood e-commerce platform with multi-role workflows, secure payments,depth cencor, real-time data features, and AI-assisted customer support.

- **Technologies & Tools:** React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Postman
- **Git Repo:** <https://github.com/Ishara125/Fisheries-Management-System>

Mobile-Health-Tracker

Developed a mobile application for Health care with a focus on smooth navigation and variouse functionalities. Built a user-friendly Android experience for Track habbits,meditation and daily reminders.

- **Technologies & Tools:** Kotlin, Android Studio
- **Git Repo:** <https://github.com/Ishara125/HealthTrackerMobileApp>

Medical Health Care – Hospital Management System

Built a full-stack hospital management system with role-based access, appointment scheduling, clinic management, notifications, and centralized data handling.

- **Technologies & Tools:** Java, MySQL, Tailwind CSS, JavaScript, VS Code.
- **Git Repo:** <https://github.com/lshara125/Hospital-Management-System>
